

## BOOTABLE FULL SYSTEM BACKUP (VIA SMIT)

AIX Version 4.3.3.0

April 10, 2000

1. Login as root on the main console.
2. At # prompt, enter:

**smit**

Select: **System Storage Management (Physical & Logical Storage)**

Select: **System Backup Manager**

Select: **Back Up the System**

Select: **Back Up This System to Tape/File**

Press **F4** at **Backup Device or File [ ]**

Press  to accept **/dev/rmt0** (or /dev/rmt1, if applicable)

Press  to accept the rest of the default answers and start backup

Command in upper left hand corner of the screen will say **Running** until it completes.

Dots will display on the console to show that the system is being backed up.

The **ACommand**® will display **AOK**® upon a successful backup.

3. Press **F10** to exit **smit**.
4. Save and mark tape as **SMIT BACKUP [date]** (date backup taken).
